

Wireframe for login portal. Users will automatically be directed to this login page each time they want to use the application.

The wireframe depicts a web browser window titled "DT Tracker". The address bar shows the URL "https://dttracker.com/login". The main content area features a large heading "Welcome to DT Tracker!", followed by the subheading "Developmental Therapist Login:". Below this, there are two input fields: "Username:" and "Password:". A "Submit" button is positioned below the password field. The browser window includes standard navigation icons (back, forward, close, home) and a search icon in the top right corner.

Wireframe for the 'Caseload' page. Users may click on the 'Add Child' button to be redirected to a new page that allows them to add a new child to their caseload within the application. Users may click on the "Delete" button to delete a child from their caseload.

Wireframe for the 'Add New Child' page. Users may select the 'Cancel' button to be redirected back to the 'Caseload' page.

The wireframe depicts a web browser window titled "DT Tracker". The address bar shows the URL "https://dttracker.com/caseload/add". The browser's navigation bar includes a logo placeholder labeled "DT Tracker Logo" and a menu with four items: "Caseload", "Schedule", "Sessions", and "Attendance". The "Caseload" item is highlighted in blue. The main content area has a header "Add New Child". Below the header is a large rectangular area containing a block of placeholder text (lorem ipsum) and a "Cancel" button in the top right corner. A blue arrow points to the "Cancel" button. Below the placeholder text are three input fields with labels: "Enter child's first name", "Enter child's last name", and "Enter child's ID number". At the bottom center of this section is a "Submit" button. The browser window has a standard footer bar.

Wireframe for the 'Add New Session' page. Users may select the 'Cancel' button to be redirected back to the 'Schedule' page.

The wireframe shows a web browser window titled "DT Tracker" with the URL "https://dttracker.com/schedule/add". The browser's address bar contains the URL and a search icon. Below the browser window is a navigation bar with a "DT Tracker Logo" (a square with a diagonal line) and four tabs: "Caseload", "Schedule" (highlighted in blue), "Sessions", and "Attendance". The main content area has a large heading "Add New Session". Below the heading is a decorative horizontal line made of small, repeating patterns. To the right of this line is a "Cancel" button, with a blue arrow pointing to it from the right. Below the decorative line are five text input fields, each with a placeholder text: "Enter child's first name", "Enter child's last name", "Enter child's ID number", "Enter the day of the week sessions will be held", and "Enter the time of day that sessions will be held". At the bottom center of the form is a "Submit" button. The entire form is enclosed in a thin black border.

Wireframe for the 'Sessions' page. Users will enter a child's name or ID number and click 'Submit' to be redirected to the 'Session Log' page.

The wireframe depicts a web browser window titled "DT Tracker". The address bar shows the URL "https://dttracker.com/sessions". The browser's navigation bar includes back, forward, and home icons. The application's navigation menu contains four items: "Caseload", "Schedule", "Sessions" (which is highlighted with a blue background), and "Attendance". On the left side of the menu, there is a placeholder for the "DT Tracker Logo" marked with a large 'X'. The main content area of the page features a large heading "Sessions". Below this heading is a search interface consisting of a rounded rectangular input field with a magnifying glass icon and the text "search". Directly beneath the input field is the instruction "Search for child by name or ID number". At the bottom center of the search area is a rectangular button labeled "Submit". A small icon resembling a pencil is located in the bottom right corner of the page's content area.

Wireframe for 'Session Log' page. Users will enter the date of session and select the box beside the corresponding result of attendance.

The wireframe depicts a web browser window titled "DT Tracker" with the address bar showing "https://dttracker.com/sessions/log". The navigation bar includes a logo and four tabs: "Caseload", "Schedule", "Sessions" (which is highlighted), and "Attendance". The main heading is "Session Log". Below this, there is a label "Child's Name" followed by a large empty text area. A date input field labeled "Enter Date of Session" is positioned below the text area. The instruction "Select Developmental Therapy session attendance for this week:" precedes three radio button options: "session completed", "excused absence" (which is selected), and "unexcused absence". A "Submit" button is located at the bottom of the form area.

## Updated Wireframes for Stretch Feature

Wireframe for the 'Service Log' page that includes the stretch feature. Once the MVP is finished, I would like to add a feature that allows Developmental Therapists to retain data on reasons for any missed sessions. This data would be entered by checking the box that lists the corresponding reason for that missed session.

The wireframe shows a web browser window titled "DT Tracker" with the URL "https://dttracker.com/sessions/log". The navigation bar includes "Caseload", "Schedule", "Sessions" (highlighted), and "Attendance". The main heading is "Session Log". Below it is a form for "Child's Name" with a text input field labeled "Enter session date". The form asks to "Select Developmental Therapy session attendance for this week:" with three checkboxes: "session completed", "excused absence" (checked), and "unexcused absence". Below this, it says "If absent, select from reasons below:" with five checkboxes: "child and/or family member illness" (checked), "child and/or family out of town", "conflicting appointment", "family no show", and "other". A "Submit" button is at the bottom right. A blue arrow points from the "excused absence" checkbox to the "child and/or family member illness" checkbox.

Wireframe for the 'Attendance' page that includes the stretch feature for tracking patterns of reasons for absences. After selecting either an individual child or total caseload as well as the month for viewing, the user would then be able to select if they would like to see a chart of the attendance percentages or a chart of the reasons for missed sessions.

The wireframe shows a web browser window titled "DT Tracker" with the URL "https://dttracker.com/attendance". The navigation bar includes "Caseload", "Schedule", "Sessions", and "Attendance" (highlighted). The main heading is "Attendance". Below it is a search bar labeled "search" with the text "Search for child by name or ID number". Below the search bar is the text "or" and a checkbox labeled "Select for total caseload report". Below this is the text "Select report month" followed by a date input field with slashes and a calendar icon. At the bottom, there are two checkboxes: "Select for percentage report" and "Select for absences pattern report". A "Submit" button is at the bottom right. A blue arrow points from the "Select for percentage report" checkbox to the "Select for absences pattern report" checkbox.

## Added Wireframe for Stretch Feature

Wireframe for the 'Absence Pattern Report' page.
